

AARON JAUREGUI

Portfolio of personal work as a Technical Writer.

TECHNICAL DOCUMENTATION SITES

These are documentation sites that I solely developed for Genies tools.

- <https://docs.genies.com/docs>

TECHNICAL ARTICLES

These are documentation articles I wrote when a new Core feature was released.

- https://docs.coregames.com/references/physics_objects/
- https://docs.coregames.com/references/debris_physics/
- <https://docs.coregames.com/references/blockchain/>

TUTORIALS

These are Core tutorials I created that cover technical concepts and include programming.

- https://docs.coregames.com/tutorials/obby_tutorial/
- <https://docs.coregames.com/tutorials/slideshow/>
- https://docs.coregames.com/tutorials/pet_namer/

API EXAMPLES

These are code examples I created with descriptions for the Core API.

- <https://docs.coregames.com/api/uiimage/>
- <https://docs.coregames.com/api/blockchaintoken/>

EDUCATIONAL COURSES

These are Core educational courses I created that are lengthier than tutorials and explain topics in depth.

- <https://learn.coregames.com/courses/escape-the-room/>
- <https://learn.coregames.com/courses/to-the-moon-make-a-moon-base/>
- <https://learn.coregames.com/courses/monetize-your-game/>
